

# Post-Trade Monitoring Support – Large Global Asset Manager

300

breaches reviewed daily

### NA, EMEA & APAC

regions supported

## USD1m

in operating cost savings

100% on time delivery

#### **CLIENT CHALLENGES**

- » A client with c.USD500bn in AUM was looking to outsource its post-trade monitoring of contractual client restrictions to an experienced vendor owing to the lack of highquality specialized resources to manage the function in-house
- The client required accurate identification and rectification of all breaches through a highquality review

#### OUR APPROACH

- » We deployed a 5-member team with deep understanding of asset classes and unparalleled experience in Bloomberg AIM and Post-trade monitoring
- The client provided the team three weeks of training on the specific process
- The team developed clientspecific standard operating procedures to streamline the process
- Over time, the team further streamlined the process, which resulted in measurable efficiencies

#### IMPACT DELIVERED

- The time-zone advantage ensured that all breaches were cleared before the client started work the following day
- The client was able to conduct a high-quality review of and rectify c.300 breaches daily
- Process improvements such as rule optimization improved efficiency
- » The client was able to demonstrate to regulators and its end customers that it runs a systematic post-trade monitoring program compliant with investment and regulatory guidelines
