

Corporate factsheet

Our workforce is our asset and greatest strength. Our employees – with their diverse skills, knowledge and expertise – are the reason for our outstanding growth over the past two decades. Their skills have contributed to Acuity's overall productivity and effectiveness.

Hence, we prioritise identifying exceptional talent and offering them learning and development opportunities. Our people are offered opportunities to work in global roles, collaborating with experts to gain new experiences.

Our people foster innovation and deliver excellent customer service, building a strong brand reputation. We are invested in employee development, engagement and wellbeing.

OVERVIEW

Acuity Knowledge Partners (Acuity) is a leading provider of bespoke research, analytics and technology solutions to the financial services sector, including asset managers, corporate and investment banks, private equity and venture capital firms, hedge funds and consulting firms.

Its global network of over 6,000 analysts and industry experts, combined with proprietary technology, supports more than 500 financial institutions and consulting companies to operate more efficiently and unlock their human capital, driving revenue higher and transforming operations.

Acuity is headquartered in London and operates from 10 locations worldwide.

Acuity was established as a separate business from Moody's Corporation in 2019, following its acquisition by Equistone Partners Europe (Equistone). In January 2023, funds advised by global private equity firm Permira acquired a majority stake in the business from Equistone, which remains invested as a minority shareholder.

Global footprint

We are one of the world's leading knowledge process outsourcing companies, with a presence in three continents (13 cities).

Diversity, equity and inclusion (DE&I)

DE&I is at the core of our business, and we celebrate diversity in all forms. As a global organisation focused on equitable gender representation, we drive meaningful inclusion and help our people become better versions of themselves.

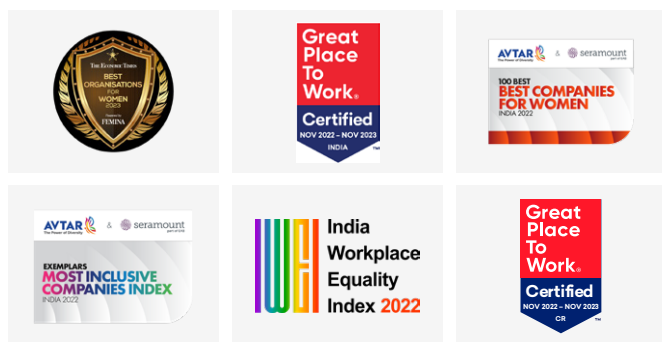

Through interventions spanning the employee lifecycle – from talent engagement and recruitment to promotion and succession planning – we provide our employees with a supportive environment to realise their true potential. Our diversity networks spanning women's initiatives, parents, multicultural groups and intergenerational groups and our LGBTQ+ network have been instrumental in driving a positive change and making employees develop a sense of belonging.

Through our women oriented interventions—Women's Initiatives Network, leadership development programmes, and Step Up (our women returnee programme)— we drive enhanced recruitment, retention and development of exceptional talent.

Giving back to communities

We actively support initiatives for social empowerment, inclusive development and environmental sustainability.

Each year, we expand and incorporate projects that support areas requiring social intervention. We are committed to improving the conditions of the underprivileged, particularly children and women, using effective, innovative, and sustainable development solutions. From setting up math labs in government schools in urban areas to caring for malnourished children in remote rural areas, our commitment to recognising the needs and changing the lives of the less privileged is visible in the diversity of our CSR programmes.

To know more about our commitment to uplifting the underprivileged sections, please visit:
